## Celebrating 50 Years of NYC ASPE!

Holby Valve congratulates  
the NYC Chapter of ASPE  
on five decades of  
advancing plumbing  
engineering and building  
a strong professional  
community.

Since 1930, Holby Valve has stood  
for one thing: **QUALITY.**

From hospitals to high-rises, our  
tempering valves have delivered  
durability, simplicity, and  
performance without  
compromise.

- ▼ Engineered for longevity
- ▼ Refined for reliability
- ▼ Trusted for generations

As NYC ASPE celebrates 50 years  
of excellence, we're proud to  
stand beside you—built to last,  
just like the systems you design.

## MESSAGE FROM SOCIETY EXECUTIVE DIRECTOR & CEO

Good Evening to All,

It is truly an honor that I've been given the opportunity to join in the celebration of such a remarkable milestone. On behalf of all ASPE members, the Society Board of Directors as well as the Society Operations Staff, I have the distinct pleasure to congratulate the ASPE NYC Chapter on achieving your 50th Anniversary goal.

As the NYC Chapter began its journey with your charter event on October 27th, 1975, we can only imagine the thoughts of the original NYC Chapter Board, relative to reaching half a century in today's business world. Regardless of their thoughts at that time on the matter, this accomplishment is no small achievement. We are so proud for the NYC Chapter. It reflects not only the vision and dedication of your Chapter's founders, but also the hard work, perseverance, and commitment to excellence that have defined the ASPE NYC Chapter through the past five decades.

We can all look upon the Society Mission Statement with tremendous pride as the NYC Chapter has met all those ideals laid out so long ago, which are just as relevant today. For reference, I've provided the statement below:

*The American Society of Plumbing Engineers (ASPE) is the international organization for professionals skilled in the design, specification and inspection of plumbing systems. ASPE is dedicated to the advancement of the science of plumbing engineering, to the professional growth and advancement of its members and the health, welfare and safety of the public.*

The Society disseminates technical data and information, sponsors activities that facilitate interaction with fellow professionals, and, through research and education, expands the base of knowledge of the plumbing engineering industry. ASPE members are leaders in innovative plumbing design, effective materials and energy use, and the application of advanced techniques throughout the world.

## **MESSAGE FROM SOCIETY EXECUTIVE DIRECTOR & CEO**

Additionally, over the past fifty years, the ASPE NYC Chapter has built more than a reputation for quality and service — you have built trust, lasting relationships, and a legacy that continues to strengthen the wonderful community you serve.

As we join together in excitement to celebrate this Golden Anniversary, it is our hope that you can take great pride in all you have accomplished, and look forward with confidence to the many successes still ahead. We are sure of where you've chosen to plant your feet, standing tall with pride throughout the NYC Chapter's Board of Director's leadership, beginning with President, Sean Mooney, CPD, then joined and assisted by the Society's current Region 1 Director, Robb Risani, PE, CPD, GPD, LEED AP, ASSE 6060 which will continue to honor the NYC Chapter's past presidents. Of course, when we focus on our past accomplishments while we strive for future success, we just can't move forward without also recognizing and giving proper thanks to so many volunteers and chapter members that have made it all happen and will be involved in the next half century of the NYC Chapter's success'.

On behalf of all who have had the privilege of witnessing your journey, I extend my warmest congratulations and best wishes for the future as well all form the strongest ASPE Team, which will excel as we remain focused on being dedicated to the advancement of the science of plumbing engineering, to the professional growth and advancement of its members and the health, welfare and safety of the public.

Here's to the past fifty years — and to the next fifty as well.

Carry On.....

Sincerely,  
Billy Smith, FASPE  
Executive Director/CEO

## MESSAGE FROM SOCIETY PRESIDENT

On behalf of the American Society of Plumbing Engineers (ASPE), it is my honor to congratulate the New York City Chapter on reaching its 50th Anniversary. Chartered on October 27, 1975, the Chapter has grown into one of the most dynamic and influential voices within our Society. For half a century, the NYC Chapter has stood as a pillar of technical excellence, professional development, and community engagement—helping engineers, designers, and industry professionals advance both their careers and the built environment of one of the greatest cities in the world.

The legacy of this Chapter is seen not only in its meetings, educational programs, and advocacy efforts, but also in the generations of plumbing engineers it has inspired and equipped. Under the current leadership of Chapter President Sean Mooney, CPD, and with the support of Region 1 Director Robb Risani, PE, CPD, GPD, LEED AP, ASSE 6060, the NYC Chapter continues to uphold the Society's mission: to advance the science of plumbing engineering, promote the health and safety of the public, and strengthen the professional community of our members worldwide.

As we celebrate this milestone, we honor the Chapter's past presidents, dedicated volunteers, and active members whose commitment has brought us to this point. Just as importantly, we look ahead to the future—ensuring that the next 50 years are marked by innovation, collaboration, and opportunity for all who contribute to the plumbing engineering profession.

Congratulations, ASPE New York City Chapter, on 50 years of leadership and service. Your work strengthens not only our Society but the very foundation of safe, sustainable, and resilient communities.

Bryan L. Hutton, CPD, MBA, FASPE  
Society President (2024–2026)  
American Society of Plumbing Engineers

## MESSAGE FROM REGION 1 DIRECTOR & OUTGOING PRESIDENT

Dear ASPE Members, Friends, and Honored Guests,

It is with great pride and deep appreciation that I join you in celebrating the 50th Anniversary of the New York City Chapter of the American Society of Plumbing Engineers.

From our humble beginnings in 1975 to becoming the largest chapter in the entire Society, NYC ASPE has grown into a powerhouse of innovation, leadership, and community — and I am incredibly honored to have been a part of that journey for the past 18 years as a member, including twelve on the Chapter Board and four as Chapter President.

This milestone is more than just a number, it's a reflection of five decades of dedication, mentorship, and progress. During my presidency, I had the privilege of witnessing our chapter achieve a record-breaking **403 members**, a new high that speaks volumes about the strength, relevance, and reputation of our chapter. This growth is the result of unwavering support from our members, our devoted sponsors, and a legacy of leadership that stretches across generations.

In October 2024, I was humbled to be elected to the ASPE Society Board as **Region 1 Director**, and I carry the NYC Chapter spirit with me into that new role. What makes our chapter truly exceptional is not just our size, but the energy and enthusiasm our members bring to every meeting, every event, and every conversation.

Tonight, we cruise not just to commemorate our past, but to celebrate the momentum propelling us into the future. Our chapter doesn't just represent a city, it represents an ideal: that when professionals come together with purpose, integrity, and passion, they create something far greater than the sum of its parts.

## MESSAGE FROM REGION 1 DIRECTOR & OUTGOING PRESIDENT

I want to take this opportunity to thank:

- **Our Members** – for your engagement, participation, and belief in our mission.
- **Our Sponsors and Manufacturer Representatives** – for your tireless support, partnership, and investment in our continued success.
- **Our Past and Present Board Members** – for your leadership, vision, and countless volunteer hours. Your dedication brought us to this golden anniversary.
- **Our Past Presidents in Attendance** - Leon Perkolaj, Joseph Tagliaferro, Vinny Rotoli, Salvatore Rachiele, Hershel Weiss
- **To Remember Those That Have Served Before Us** – Without you this wouldn't be possible. Remembering Rick Sorvillo, FASPE.
- **The Incoming NYC Chapter Board** – I know the chapter is in excellent hands and will continue to thrive under your guidance. Sean Mooney has also set the goal of 450 and then 500 members! I am looking forward to seeing all that Sean will accomplish.
- **Our Society Leadership**, including those joining us for this historic celebration:
  - Billy Smith, FASPE – Executive Director/CEO
  - Bryan Hutton, CPD, MBA, FASPE – ASPE President
  - Brianne Hall, PE, CPD, ASSE 6060, FASSE – VP, Legislative
  - Nikita Patel, PE, ASSE 6060 – AYP Liaison

Your presence and continued support mean the world to our chapter, and your leadership strengthens the entire ASPE community.

As we celebrate this 50-year milestone aboard this unforgettable cruise, let us reflect on our rich history and look forward to an even brighter future. The NYC Chapter has always been, and will continue to be, a beacon of excellence in the plumbing engineering profession.

Here's to the best chapter, in the best region, for an incredible Society, all right here in the greatest city in the world.

With heartfelt thanks,

**Robb A. Risani PE, CPD, GPD, LEED AP, ASSE6060**

Immediate Past President, New York City ASPE

Region 1 Director, ASPE Board of Directors

## MESSAGE FROM INCOMING PRESIDENT

My fellow ASPE NYC Members,

Hello, and thank you for attending our 50<sup>th</sup> Anniversary Celebration! Congratulations to you all, as this milestone could not have been accomplished without each and every one of you. Thanks to your membership and continued support, New York City has risen to the largest ranks that an ASPE Chapter has ever seen - 403 strong and still growing!

In "The City that Never Sleeps", our Chapter doesn't either. Our desire for success has brought out the best of everyone in this organization. Your active engagement at meetings, routine WOA and AYP events, Trade Shows, and all kinds of social hours in between have all made this group feel like a large extended family. And we never take sides with anyone against this family!

I'm honored to be your newest President, especially considering the many great Chapter leaders that have come before me. Robb Risani has been a wonderful mentor in preparing me for this role while leaving large shoes to fill! Joe Tagliaferro and Jared Donnami were both very supportive of my growth on the board, increasing my desire for engagement in the Chapter. And the man that started this all with a simple "You should join ASPE"; Sal Rachiele. A boss, mentor, and friend, Sal inspired me to get involved early in my career, and I've been thankful for it ever since.

I look forward to continuing the legacy you all have built with the fantastic board we have now. The Chapter is in good hands with Joe, Steve, Esteban, Daniel, Frank, Alberd, Dempsey, David, and Catherine. Cheers to 50 Years - and many more!

Yours in ASPE,  
Sean Mooney, CPD  
NYC Chapter President, 2025-2027

## **2025-2027 INCOMING OFFICERS**

	President Sean Mooney, CPD
Vice President Technical	Joseph Tagliaferro, PE
Vice President Legislative	Esteban Roldan, PE, CPD
Vice President Membership	Steve Ryback
Treasurer	Sal Rachiele, CPD
Administrative Secretary	Daniel Blatto
Corresponding Secretary	Frank Wu, PE
ASPE Young Professional Liaison	Dempsey Narcisse, LEED AP BD+C, CPD
ASPE Young Professional Liaison	David Alperin, PE & ASSE
ASPE/ASSE & Affiliate Liaison	Steve Ryback
Women of ASPE Liaison	Catherine Filibes-Massih
Education Committee Chair	Alberd Misku, CPD
Scholarship Committee Chair	Esteban Roldan, PE, CPD
Social Chair	Sasha Houlihan
Webmaster & Newsletter Editor	Robb Risani, PE, CPD
Board of Governors Chair	Robb Risani, PE, CPD

## **2023-2025 OUTGOING OFFICERS**

	President Robb Risani, PE, CPD
Vice President Technical	Sean Mooney, CPD
Vice President Legislative	Joseph Tagliaferro, PE
Vice President Membership	Steve Ryback
Treasurer	Sal Rachiele, CPD
Administrative Secretary	Esteban Roldan, PE, CPD
Corresponding Secretary	Daniel Blatto
ASPE Young Professional Liaison	Edbin Gonzalez-Calderon, PE
Social Chair	Sasha Houlihan
ASPE/ASSE & Affiliate Liaison	Steve Ryback
Women of ASPE Liaison	Catherine Filibes-Massih
Webmaster & Newsletter Editor	Robb Risani, PE, CPD

## PAST PRESIDENTS OF NYC ASPE

The New York City Chapter of ASPE was chartered on  
10/27/75

Richard Reilly	1975 - 1977
Frank Scalia	1977 - 1978
Bert Geller	1978 - 1979
Pat Tighe	1979 - 1980
Richard Toder	1980 - 1981
Vincent Pantuso	1981 - 1983
Steve Winter	1983 - 1985
Jose R. Baz	1985 - 1987
Al Collado	1987 - 1989
Fred Barber	1989 - 1990
Frank St. George	1990 - 1992
Ed Wallace	1992 - 1995
Tim Allinson	1995 - 1997
James Walsh	1997 - 1999
Rick Sorvillo, FASPE	1999 - 2001
Rick Stamm	2001 - 2003
Vincent Quatraro	2003 - 2005
Anthony Merlini	2005 - 2007
Hershel Weiss	2007 - 2009
Leon Perkolaj	2009 - 2011
Philip Parisi	2011 - 2013
Vincenzo Rotoli	2013 - 2015
Salvatore Rachiele	2015 - 2017
Jared Donnhammer	2017 - 2019
Joseph Tagliaferro	2019 - 2021
Robb Risani	2021 - 2025

## DIGITAL HOT WATER SYSTEM SOLUTIONS

### BEST IN-CLASS INFECTION CONTROL FOR HEALTHY HOT WATER

#### THE BRAIN® DIGITAL RECIRCULATION VALVE (DRV)

##### FEATURES

- Component self-diagnostics
- Programmable set point and alerts
- Programmable thermal disinfection

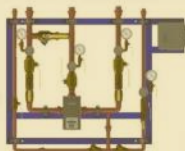

Engineered exclusively for continuously recirculating hot water systems, The Brain® simplifies your hot water system to deliver unparalleled accuracy, stability and safety. Features include programmable temperature alerts and a program to promote compliance with recommended Legionella guidelines.

##### SAFETY

- Over temperature shutoff
- Power failure shutoff
- Emergency mode

##### PERFORMANCE

- ±.2°F / °C control
- 1°F / °C minimum system temperature loss

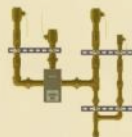

#### THE BRAIN® DIGITAL MIXING CENTER (DMC)

With isolation valves, strainers, check valves, temperature and pressure gauges, HWI bypass and a control panel on a carbon steel frame.

#### THE BRAIN® WITH RECIRCULATION MANIFOLD

#### THE BRAIN® DIGITAL MIXING CENTER (DMC) FLEX

With isolation valves, strainers, and check valves on unistrut mounting.

#### DIGITAL-FLO® PRE-PIPED WATER HEATERS - FEATURING THE BRAIN®

Armstrong's industry-changing series of water heaters achieves a higher level of hot water system temperature control accuracy.

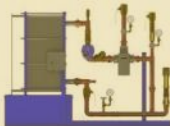

##### FEATURES

- The Brain® ASSE 1017 certified DRV
- Optional SAGE® building system interface with integral data-logging to support AHSRAE 188 monitoring and reporting compliance

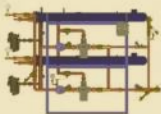

#### DIGITAL-FLO® SEMI-INSTANTANEOUS STEAM/WATER HEATER

- Choose from 16 standard assemblies or customize
- Compact vertical design, small footprint
- Simple tube bundle access
- Water temperature raised above Legionella survival levels on every recirculation cycle

#### DIGITAL-FLO® INSTANTANEOUS BOILER WATER/WATER PHE WATER HEATER

- Choose from 40 standard assemblies or customize
- No need for modulating pump control

#### DIGITAL-FLO® INSTANTANEOUS STEAM/WATER SHELL & TUBE WATER HEATER

- Choose from 48 standard assemblies or customize
- Separate steam control valve not required
- Water temperature raised above Legionella survival levels on every recirculation cycle

#### CONSTANTEMP® STEAM/WATER SKID-MOUNTED PACKAGE

##### FEATURES

- Quick plug and play installation to save time, manpower, and costs
- Feed-forward control
- Economical option
- Completely assembled - connect to steam line, cold water inlet, hot water outlet, and condensate line and heater is ready to use

TO UNDERSTAND OUR VALVES

**COMPLETE THE SYSTEM**  
WITH VIEGA® PRESS TECHNOLOGY

## Temperature Control AND High Temperature Safeguard! "... And the two shall be as ONE."

A safe, reliable hot water system is a marriage between mechanical components and a control system with built-in safeguard protection. The ETV-Plus includes everything you need:

- 3-Way Stainless Steel Electronic Tempering Valve and Actuator that meets the California lead-free standards.
- Temperature Monitoring Control- High Temperature Safeguard with Solenoid Valve
- Remote Communication capability via Internet or BACnet

### Safety that Endures

When the mixing valve sensor detects an overly high supply water temperature, the ETV-Plus signals the solenoid valve located in the hot water supply line to close, shutting off hot water supply to the system. It also triggers an alarm to notify personal and enacts a manual reset requirement so that the valve will not re-open until the problem is resolved.

With remote communications capability (via the Internet or BACnet) these alarms and other control points can be seen and accessed via the internet or an energy Management System.

These interactive components build a foundation for long-term safety.

## Concealed pendent sprinkler and flexible hose assemblies make retrofit a breeze!

The VK971 Quick Response and VK972 Standard Response Concealed Pendent Sprinklers with Flexible Hose Assemblies make installation simple and upgrades seamless. With no friction loss to calculate, these assemblies are ideal for replacing hard-piped arm-overs or adding flexibility in new construction, all while maintaining a clean, professional look.

Available in multiple hose lengths, finishes and temperature ratings, the VK971 and VK972 are cULus Listed for installations in accordance with NFPA 13 and 13R. Learn more at [vikinggroupinc.com](http://vikinggroupinc.com).

Viking's revolutionary Sprinkler Selector ensures that you can find the right sprinkler for the job — every time. Get started by visiting [webtools.vikingcorp.com/sprinklerselector](http://webtools.vikingcorp.com/sprinklerselector).
